

**REMARKS**

This Amendment is being filed concurrently with a Notice of Appeal, to reduce the issues to be presented to the Board of Patent Appeals and Interferences.

Claim 26 has been amended as suggested by the examiner, to thereby remove the objection to this claim.

While Applicants maintain that the table depicted in claim 33 is definite within the requirements of 35 U.S.C. §112, to obviate the rejection this claim has been amended to present the subject matter in a narrative form. It is respectfully submitted that this amendment does not introduce any new issues, but merely restates the content of the table in words.

Entry of this Amendment is submitted to be proper, since it reduces the issues for appeal, and does not require any further search on the part of the examiner.

Respectfully submitted,

BUCHANAN INGERSOLL & ROONEY PC
